# WiE AG IEEE RSET SB

ASTRA

➢ IEEE RSET SB's Wie Affinity Group stepped in with a series of events, named Astra to showcase the fact that nothing is impossible and all you need is a scoop of try.

➢ The main goal of this event was to make sure that our SB as well as our college mates are well-versed with basic technical skills much needed in the 21st century and give them a detour to a new path they can take up in their career.

➢ Over 80 students had taken part in this event and our skill development sessions have helped our members achieve top positions in the Kerala section content, poster and video team.

Session 1: Web Development

➢ The first event under ASTRA was a 7 day Web Development Learning session led by one of the final year students of RSET.

➢ At the end of the learning sessions, a competition was held among the participants to develop a copy of a provided web page within a duration of 3 days.

Session 2: Video Editing

➢ The second workshop organized under ASTRA was a 7 day learning session on Video Editing in the Filmora software.

➢ After the session, the participants were asked to make a video of their own. The winning videos were posted in the official Youtube page of the SB.

Session 3: Circuit Debugging

➢ The next workshop under ASTRA was a 2 day learning session on Circuit Debugging in the circuit simulation platform on TinkerCad.

➢ The session was led by one of the RSET alumni and the Space Manager at Steag CSCT.

➢ After 2 days of learning sessions, a 3 hour circuit debugging competition was conducted to test the participants' knowledge.

Session 4: Blogging

➢ The final workshop was a 1 day learning session on Blog writing led by the founder of Typewriter.media after which a blog writing competition was organized for the participants.

Femme 2020

Prativadh

➤ The debate competition, PRATHIVADH was conducted as a part of Women's day celebration " Femme20" on 4th March 2020.
➤ The topic for the year was "Does gender equality exist in the industries" and speakers from all over the institution had taken part.

Talk

➤ The speaker for the day was Ms. Enfa Rose George, co-founder of Pehia foundation and also a Google Techmaker scholar 2019.

She-Quiz

➤ As a part of FEMME'20 we had conducted a quiz competition
➤ The first round was a written type consisting of 40 questions on the topic "Basics of Science and Mathematics" and were given 20 mins.

AURA

AURA was an event conducted by IEEE LINK and an event in which our SB had witnessed a major win with over 100 participants.

Memory Lane

Thank you
